

WATER TREATMENT

MUD PUMP

Severe duty 'mud' pump for dirty abrasive water.

BENEFITS

- AR500-impeller and Impeller housing chopper blades
- Marine water bearing in submerged section eliminates costly repairs and seals
- 4 hole flanged bearing (severe duty)
- Split impeller pulls from top and bottom of housing
- Chopper breaks down whole product before it enters pump suction
- Easy to repair and rebuild
- Designed and produced for the 24/7 industry
